THE ATLANTA CONSTITUTION.

BY W. A. HEMPHILL & CO. | ATLANTA, GEORGIA, WEDNESDAY, DECEMBER 7, 1870. | VOLUME III--NUMBER 146

Evening Edition.

Atlanta, Ga., December 6, 1870

☞ We are authorized to announce the name of Mr. R. F. Maddox as a candidate for Water Commissioner in the Fifth Ward.
dec6-2t

☞ Will "F.," whose communication from Clayton county appeared a day or so ago in THE CONSTITUTION, please communicate with us?

A MEETING in the interest of immigration will be held at the school-room of the Rev. H. Bokum, corner of Broad and Marietta streets, this afternoon at 4 o'clock.

☞ Hon. Horace Capron, Commissioner of Agriculture, will accept our thanks for a copy of his report for the year 1869, a valuable document, containing a vast amount of information in almost every department of industry.

☞ Judge Dennis Hammond is a bolting candidate for Mayor of Atlanta. As is natural, the Radicals of that city have held a meeting and resolved to suppor him against the regular Democratic candidate, Dr. Alexander. We hope Alexander will lay him out as cold as a wedge for the benefit of others of the sorehead fraternity.—*Sav. Advertiser.*

THE SOUTHERN CULTIVATOR.—This old stand by—for nearly thirty years an honest and earnest laborer in the cause of Southern agricultural improvement, and always a favorite with Southern tillers of the soil—still maintains the high character and position it has ever enjoyed. The December number, just received, is fully up to the Cultivator's standard—and that is saying all that need be said in its behalf.

The Express Company.

The Express Company has placed us under obligations for repeated favors. Mr. Cobb is the excellent agent, and Mr. Campbell the industrious messenger, with whom we are most often brought into pleasant contact. We do not exaggerate in saying that no Express office in the whole country is better managed than the one in Atlanta, with its vast amount of business.

Free Schools.

We give in another column a communication on the subject of Free Schools, from the pen of one of the oldest teachers in the South, a citizen of Savannah, and one who speaks from the book. The article will afford those of our people, who really want information on the subject, a vivid comparison of the two systems of schools, and the superiority of the Free School plan.

We commend it to our readers for a careful perusal.

A Funny Fellow.

An Illinois railroad fireman of a humorous turn of mind, blew the engine whistle to scare an omnibus team. He merely did it for the fun of the thing. The horses took him in earnest and ran away. The funny result was the death of one young lady and the probable decease of another from the injuries received. This jocular fireman will have a chance of explaining the philosophy of his humor to a jury, under the comical charge of man slaughter.

All that is needed to complete the side-splitting joke of this cheerful chap is a round term of personal whistling in the Illinois Penitentiary.

A Jolly Lark of Nobility.

Fast fellows are not confined to Fiskville in the State of New York. We have high old sprigs of debauchery in the great Manhattan City. But England herself can do something in this line.

What is to be thought of the noble young lark that throws away on his vices the insignificant sum of *three million and a half* of gold dollars in ten years, making an average weekly sluice of nearly seven thousand dollars. That fellow must be kin to Bullock's Legislature.

His name is Lord Courtenay, son of Lord Devon, one of the most illustrious Norman houses of English nobility, numbering emperors in its stretch of blood, and glittering in history. One of its Earls nearly wedded Elizabeth. This young sprig of a grand family, with his prospect of a small kingdom, has pitched into bankruptcy.

So wags the wicked world.

Water-Works.

For several years past, the question of supplying the city of Atlanta with water has been agitated by a large class of our citizens to such a degree that the City Council thought it was for the best interest of Atlanta to have the subject investigated, with a view to feasibility and cost of the same.

This has been done and approved by Mr. H. P. Biskinbine, of Philadelphia, one of the leading hydraulic engineers of the country. Proposals have been received for the complete construction of the works from several of the leading manufacturing house in the United States.

Competition has been close and spirited. The bids cover the works complete for the delivery of water to all parts of the city, where distributing pipes reach, including two separate and distinct sets of engines and pumps, eleven and three-fourth miles of pipe, covering a radius of three-fourths of a mile from the centre of the city, together with a wrought iron tank with half million gallon capacity.

The bids vary from three hundred and thirty-eight thousand dollars to four hundred and eighty-one thousand dollars. The difference in these bids is on account of the different kinds of engines and pumps, the pipes being nearly the same.

The future growth of the city was anticipated in determining the size of the main pipe and the capacity of the machinery.

By reducing the distribution pipe to cover a radius of one-fourth of a mile from the center of the city, the first cost of the works can be reduced from seventy-five to one hundred thousand dollars.

As for the benefits arising from the introduction of water on a judicious and safe plan, our people are two intelligent and enlightened to doubt the *impulse* it would give to our yet *healthy* and *growing* city. We are all aware on what dangerous ground we stand, in case of a large fire. Our supply would soon be exhausted, and should such a fire get control of our firemen for want of water, the disaster would be severely felt by all.

Our insurance agents freely tell us, that rates would be reduced at least twenty-five per cent. by the introduction of an adequate supply of water, to say nothing of the sanitary advantages and real benefits gained from other sources.

Should we profit by the experience of other cities in building Water-Works, with their cost, we find that after two years, the revenues of the works greatly exceed the expense of maintaining them and the interest on cost of construction.

The Council who have brought this enterprise down to close competition for the benefit of the city, now give all the facts. It is for the people to say whether or not they are willing to enter upon this improvement. Their judgment will be cheerfully acquiesced in by all.

☞ One of our exchanges makes this hit: A rival to the Mammoth Cave of Kentucky is the Radical cave-in in Missouri.

The entire apparatus having been received for the fire alarm telegraph in Savannah, it will soon be in working order. Mary Hauley was killed in Savannah on Sunday, by the explosion of kerosene, she was trying to kindle a fire with. The Germania Fire Company, of the above city, is to have a new hall. Ten thousand dollars already subscribed.

AUGUSTA, GA., December 5th, 1870.

Dear Constitution: Dr. Samuel Bard passed through here yesterday enroute for Washington City. John Stephens, of the firm of Stephens, Flynn & Co., is expected here tomorrow. His friends will be ready to extend a hearty greeting to him on his arrival. Eggs are in demand for the occasion. George Johnson with his museum is on exhibition here. He is trying to engage the service of "Wicked Ben" the S. T. candidate for Mayor to go along with him and be exhibited as the "Wickedest Man in Georgia." There is an educated Lion in the city. He writes well, and when he speaks he "means" a good deal. His boss is a railroad man who has railroad on the brain. He snores "spikes and crossties" and makes fast schedule time in all he does. Augusta sends greeting to Atlanta. Elect the whole Democratic ticket. Give no quarters to bolters or soap-tails.

PUBLIC SCHOOLS.

All About Them and Their Advantages over Voluntary Schools, by One of the Best Educators in the State.

Editor Constitution—DEAR SIR: I have, for some time, had it in my mind to send you a few thoughts on the subject of public schools, pointing out the essential superiority of such schools over others, and also giving the results of our experiment in this city, (Savannah).

I have followed with great interest the progress of the educational movement in your city. Perhaps the more so, because, while enjoying the hospitality of one of your most distinguished citizens, I participated in a discussion on the subject of public education, which resulted in the action of the City Council on the subject, or which, at least, contributed in some degree to that result.

Public schools are so much more efficient than voluntary or private schools, not only in educating all the children of the community, but in giving them a better education, that no city, having once adopted a system of public schools, has ever abandoned it.

The chief advantages arising from a city thus taking the management of its educational interests, are as follows:

1st, Under this system, provision is made for the education of all the children of the city. Under the voluntary system, which prevails in most of the cities of our State, (I speak from personal observation and reliable information,) less than one-half the children are receiving an education; and I venture to say that in the city of Atlanta, where there are over 3,000 white children of school age, that there are not more than 1,600 now in the schools of the city. Besides, a large proportion of the children in the primary schools are withdrawn as soon as they are prepared for the advanced schools, because of the greater cost of tuition in such higher schools. Where public schools are established, all the children of the community may enter the primary schools, pass through the various grades, and thus receive a complete education, without any pecuniary hindrances, and with equal chances to all. It is needless to speak of the desirableness of general education, or of the superiority of an educated community over one containing a large class of ignorant persons, with their necessary concomitants of destitution, degradation and vice.

2. Public schools give a better education than it is possible to furnish in private schools. A board of education consisting of intelligent men chosen by the people, select the teachers, and assign them to the positions for which they are best qualified, make the rules and regulations, locate and classify the schools, fix the course of study, and by a proper division of labor completely utilize the entire time and teaching power of every teacher. Each teacher has forty scholars, but they are all of one grade or class, and equally advanced in their studies. To this class he gives his entire time, not only hearing their recitations, but superintending their studies, and, during study hours, giving special assistance to those who need it. In a private school of forty pupils and one teacher, there will be four or five different classes, and even then they are unequally classed to their disadvantage. Each of these classes must have four or five recitations daily, and as a consequence the teacher is burdened with too many duties. In this difference between public and private schools lies the main cause of the greater efficiency of the former; and this complete classification is complete only in large schools under one general control. In addition to this more complete division of labor and classification of schools, there is another powerful element of success in the fact that the schools are under the direction of one superintendant. He is a practical teacher, the wisest and most experienced that can be had. He is the guide and *inspirer* of all. He not only directs the general management and mechanism of the system, but he enters the schools; he sees that the classification is complete, and that said scholar is in the class, and doing the work most profitable for him; he leads the teachers to correct principles and methods of teaching and government; he tests the results of their labors, and inspires them with higher aims and motions. Thus the weaker and less experienced teachers, who, if left to themselves, would waste their time in fruitless experiments, or continue in the grave errors into which they may by accident have fallen, are pulled up to the higher level of a wider experience and more rational methods.

3. Another advantage of public over voluntary schools is their greater economy, not only in labor, in teaching power, in general resources, and in adaption of means to ends, but in the cost to the community. This was well shown in an article in your paper of the first instant; but I venture to add a word or two on this aspect of the subject. It costs your city now, to educate the thousand children receiving an education, at an average of $5 per month, $50,000. This sum, under the Public School system, will educate 2,500, at a cost of $20 per year. This is precisely what we are doing in Savannah, and in an experience of more than twenty-five years, I have never seen better schools. It may be said that the average of $5 per month, for tuition in free schools, is too high an estimate, as there are more children in the primary schools, where the tuition is not more than $3 per month. But I make the average on the supposition that the pupils receive a complete education. In that case, they pay as primary schools $3 per month, in the next grade $5, and in the high schools $10. This would make the average much higher than stated. It is true that many children never advance beyond the primary schools, because of the expense, thus receiving but the merest elements of an education. But this is against the voluntary system, since it reduces the number of those who receive a full education, and leaves the average cost even higher than before. If we can give a complete education to 2,500 children for $50,000 a year under a well arranged system of public instruction, while it costs the same sum to furnish a partial, and at best, a more imperfect education to 1,000 children under the educational system now prevailing in your city, how can any thoughtful citizen who looks to the future prosperity of your city, hesitate how to decide? In other words, all the children of the city may obtain a better education for the same sum now paid for the education of little more than one third of the children, while the remaining two-thirds are growing up in ignorance. This is a plain case, and not a whit over-stated. We have passed through the one system, and we are now enjoying the other, and we can compare the results. I dwell on this point, because it is not generally as well understood, as are the other advantages of public schools. It is true that the $50,000 appears in one large sum, and is added to the general tax. But is the sum any larger than when taken month by month, from those who are now paying for the education of their children? And why should not the whole community share in the cost of that which is to be a benefit, and nearly an equal benefit to all? It is true that many children under such a system will receive an education, whose parents, owning no taxable property, will pay no tax directly for the schools; but the merest tyro in political economy knows that when taxes are increased, rent and wages do adjust themselves to the new conditions that the financial burdens of a community are pretty equally distributed.

I have occupied so much of your space with the topics already considered, that I must postpone the history of our educational movement in this city, which has resulted in a most complete system of public schools. I will only say that we have in these schools about two thousand children. They are classified as Primary, Intermediate, Grammar and High schools. The cost of the schools for this year will be about $40,000, making an average cost per scholar of $20. The tendency under the public school system towards excessive economy is very strong, but our Board of Education have wisely adopted the policy of giving a good education at the least possible expense, rather than that of doing what may be done with the least possible expense. This is perhaps the chief reason why our schools have been so successful; they have been made good. In spite of all opposition, and there was much at first, and in the face of many disadvantages, for we began with one school, these schools have steadily won their way into the favor and confidence of our entire community, so that now the children of all classes are in the schools, and everybody feels a just pride in them.

The only objections against the establishment of public schools in our cities worthy of consideration are two, viz: The increase of tax necessary, and the natural repugnance of the more refined class of the community to have their children educated in the same school with the lower classes. The former of these objections has already been answered. As to the latter, I must confess, that theoretically I have no answer that will satisfactorily meet this objection; but I can say that, in practice, *the evil does not exist.* Every one who visits our public schools sees at a glance that the moral atmosphere of the schoolroom, as well as the intellectual, is superior to that of private schools of similar grade. There are many educating influences constantly at work, quite as potent, though not so obvious as direct instruction. The neat and appropriate furniture which gives every scholar a neat and convenient desk; the strict though kind discipline of the school, which will not yield to the whims either of children or of parents; the weight of authority behind the immediate teacher in the superintendent and board of education. All these influences and forces are so felt in the school that they give the tone and character to the school. The children do not give character to the school, but are themselves lifted up to its level. This is true even where there is a considerable proportion of the children of the degraded.

Another reason for this superior standard observed in public schools lies in the fact that the division of labor resulting from the more perfect classification brings the pupil more closely to the teacher. The teacher has but one class, and comes to know the peculiarities and wants of each individual. There is a more searching examination, because the teacher has time for it, and more satisfactory progress.

But I fear I have exhausted your patience, as well as occupied too much valuable space in your paper.

We look with admiration, almost with wonder, at the rapid strides with which your noble city is marching to the front. It is evident to us that Atlanta is destined to be a great city, and while we may indulge in a proper spirit of emulation, we are really proud of your success. We cannot believe you will be willing to neglect that which will contribute more than anything else to that success, viz: *the general education of the people.*

I am very truly yours, B. M.

NORTH GEORGIA METHODIST CONFERENCE.

FIFTH DAY'S PROCEEDINGS.

Reported specially for The Atlanta Constitution by W. G. WHIDBY, Local Editor.

AUGUSTA, December 5, 1870.

The Conference was opened this morning with prayer, by Rev. E. H. Myers, D. D. In the absence of Bishop Pierce, Rev. W. H. Potter presided.

Rev. Miller White, supernumerary, was made effective.

The character of Rev. M. W. Arnold was passed.

It is worthy of note that not a charge involving the moral character of the ministry of the North Georgia Conference, has been presented. The characters of all were passed. Rev. C. W. Key tendered his resignation as President of the Sunday School Society, which was accepted, and Rev. A. Wright elected to that position.

The collections at the Mission meeting, on Saturday night, footed up $824 50.

A resolution was adopted for the appointment of two messengers to the next Conference of the Methodist Protestant Church.

The report of the Board of Stewards of the Conference, recommending the payment of certain amounts to superannuated preachers and the widows and orphans of deceased ministers, was read.

Rev. H. J. Adams contended that the appointment was not made according to the law of the church—according to the necessities of the claimants. The report was recommitted, amended and adopted.

Col. H. P. Bell submitted the report of the committee on Ministerial Support. The report is masterly in its logic, and unanswerable in its argument. He sustained the report in a sound, practicable and earnest speech.

Rev. W. F. Cook submitted the report of the committee on Sunday Schools. The report endorses the plans of Dr. A. G. Haygood, and recommended the Sunday School Magazine, Sunday School Visitor, and Our Little People to the liberal support of the church.

In three years in Atlanta, through Sabbath school influences, 875 have been added to the Church, and three new churches established without detriment to any of the old churches.

Rev. A. G. Haygood explained his desires and intentions in regard to the Sunday school work. He intended to supply sound Methodistical books, not non-committal, wishy-washy stuff. His remarks were listened to with deep attention by the audience, and his hearers were forcibly impressed by the facts and arguments stated by him. In future, there will be an abandonment of the Union Question Books, and the fatal policy of going into winter quarters. That line of policy will meet with no favor hereafter at the hands of Methodists.

Dr. T. E. Bond, of the Baltimore Christian Advocate, made an interesting and pointed speech in reference to the war waged upon the Northern Methodist Church by Northern Methodists. While he wanted peace, he did not want it at the sacrifice of principle or truth.

The reading of the report of the Committee on Memoirs was listened to in silence, while swelling hearts and streaming eyes attested the feeling entertained for the deceased by their ecclesiastical brethren.

As previously stated, four have died during the year.

Rev. W. H. Evans was born in Wilkes county, in 1814, and died last spring at Oxford. He was licensed to preach in 1832, and joined the Conference in 1843.

Rev. Wesley P. Arnold joined the Georgia Conference in 1831. He died on the night of December 25, 1869. He and Jesse Boring were the two oldest traveling preachers in the Conference. They were ordained together and admitted together. Dr. Boring, now the only effective preacher of the class of '37 who graduated and were ordained at the same time, paid a touching tribute to his departed brother.

Rev. John W. Reynolds, who was admitted in 1858 and ordained Elder in 1860, died soon after the adjournment of the last Conference in the triumphs of the christian faith.

Rev. Edmund W. Reynolds (father of the Rev. J. W. Reynolds) a resident of Fayette county, was found dead in the woods near his residence a few weeks ago, supposed from apoplexy. He was admitted on trial in 1834 and ordained Elder in 1837. The report was adopted.

A meeting of the Incorporated or Legal Conference was held, President G. J. Pearce in the chair.

The Treasurer was ordered to pay the tax due on the wild land belonging to the North Georgia Conference, and request the South Georgia Conference to join in paying the tax on the wild land belonging to the old Georgia Conference.

Rev. W. R. Foote was appointed to audit the report of the Treasurer.

The Conference will probably close tomorrow.

BY TELEGRAPH.

ASSOCIATED PRESS DISPATCHES.

WASHINGTON.

WASHINGTON, December 6.—Admiral Porter has written to Grant in explanation of his letter to Welles. Porter's first impulse was to deny the authenticity of the letter. Neither the Admiral nor his secretary could recall to their recollection any circumstance of the kind. The Admiral could not conceive that he had uttered a sentiment so at variance with the sentiment he had uniformly expressed towards Grant. The Admiral says the letter was private, and vindictive must have been the heart which prompted its publication at this late day. The Admiral is glad that he remembers nothing about the letter because it is so poor a return for Grant's uniform kindness. Recalling the excitement of Fort Sumpter, the Admiral adds:

I presume it was while under this excitement that I wrote the letter which you say has made you lose your faith in human nature. I have no recollection of it, any more than I would have of other passing circumstances of six years ago.

The Admiral then says, I do not write for the purpose of exhonorating myself, for I would rather be the writer of the letter than its publisher. The peace of all political parties, and of society, would be placed in great jeopardy if all the private letters written within the last six years were published. And concludes with an expression of regret for the loss of Grant's friendship.

NEW YORK, December 6.—In the Senate, a bill was introduced giving the Indian Territory a delegate in Congress.

In the House, a re-distribution of seats was voted down.

The House is engaged on the Wisconsin Railroad bill.

NEW YORK.

A special to the Herald from Tours, on the 5th, says the train bearing Gambetta from Orleans was fired into by a Prussian.

The French spiked 500 cannon before abandoning Orleans. They retreated to Blois.

OHIO.

CINCINNATI, December 6.—A wall of the new gas company building was blown down. Five carpenters were buried and four killed.

T. R. Spence is elected President of the Tobacco Association.

Another nearly finished building was blown down. None hurt. Accounts from all directions report severe winds.

CUBA.

HAVANA, December 6.—French war vessels continue to watch for German steamers from New Orleans.

DeRodas leaves on the 15th.

DeRodas has freed four thousand additional blacks, leaving no slaves wherein the Government is interested.

The prisoners Mora and Parodi will be brought from Cardenas to Havana.

The Spanish Regent has granted to Matanzas the title of very loyal and noble.

At the test of Ploughs on yesterday, the 24th, and Saturday, the 22d, was heavily contested by all the leading Ploughs from the West, North, and South. George Watt, the Watt Ploughman, offered on the field, $100 for any Plough on exhibition at this Fair that would go through a very heavy cover of weeds, &c., without choking, covering up all the vegetation, pulling as long to the team, working as easy to the ploughman, and pulverizing the soil, as the Watt Plough did. No man was found to accept the offer. The Watt Plough having performed its work perfectly in this heavy cover before the offer was made, its work is there to be seen and judged of by all who are present.

A NEW DISCOVERY!!
PHALON'S
"VITALIA;"
OR,
Salvation for the Hair.
CLEAR AS WATER!
WITHOUT SEDIMENT!!
OPEN TO THE LIGHT!!!
For Restoring to Gray Hair its Original Color.
PHALON'S "VITALIA" differs utterly from all the hair coloring preparations heretofore used. It is limpid, sweet smelling, precipitates no muddy or slimy matter, requires no shaking, imparts no stain to the skin. Hold it to the light and it is clear and cloudless. It leaves no mark on the scalp; yet it reproduces in gray hair the natural color that time or sickness may have bleached out of it.
☞ Phalon's Vitalia ☜
is for one sole purpose, that of reproducing, with absolute certainty, the natural color of the hair. It is not intended as a daily dressing, nor for removing scurf or dandruff; nor for curing baldness; nor for stimulating the growth of the hair.—These objects may be accomplished after the color has been fixed with the Vitalia, by Phalon's Chemical Hair Invigorator.
THE VITALIA is a harmless and unequaled preparation for the reproduction of the original hue of gray hair, and nothing else. This is accomplished in from two to ten applications according to the depth of shade required. Sold by all druggists.

☞ Hammond is bound by the nomination because he went into it. As he bolts and seeks to split the party, vote him down.

☞ Judge Hammond's implied acceptance of the Radical nomination, from his failure to decline, should shut him off from every Democratic vote.

☞ The Atlanta election has a State importance. A Democratic victory will cheer the whole State, and be a harbinger of success in the coming State election.

☞ Hammond says he wants the votes of those who don't want to vote for Alexander. Well, the Radicals don't. But, Democrats, stand true to your chosen nominee.

☞ What is the use of a man saying he is not a disorganizer when the result of his conduct is party organization. That is the result of Hammond's independent candidacy.

☞ Hon. James P. Holcombe has been invited to deliver a memorial address at the Washington and Lee University on the 19th of January, the birthday of General R. E. Lee.

☞ Michigan having refused to strike the word "white" out of her Constitution, steps will be at once taken by the Administration geese to reconstruct the Michiganders.

☞ Will Judge Hammond receive illegal votes brought down the State Road, to support the Radical ticket? We are informed that negroes and white men will be sent down for this purpose.

☞ We want Water-Works. We can have them, and are able to build them. We need schools, and must have them. Ours is too enlightened a population to dispense with them. They are a necessity of the times.

☞ Georgia is looking to the Atlanta Democracy to preserve a united front, and achieve a rousing victory.

This can only be done by voting for the Alexander ticket, straight out.

☞ Democrats do you want the Bullock and Blodgett ticket of Aldermen?

Then vote for Hammond.

Do you want to defeat that dangerous ticket?

Then vote for Alexander.

☞ A letter from Cuba to the New York World says that General Maximo Gomez, a negro, now commands the Cuban forces. He was appointed by Cespedes in place of General Marmol, killed.

☞ A responsible gentleman has a letter from up the State Road, stating that the State Road employees along the line of road are to be brought down to support Hammond and the Radical ticket. Is it a fact? Are the negroes here?

☞ Judge Hammond disowns any claim on the Democratic party. Now let the party act on this, and vote for their regular nominee. Democrats will certainly not be foolish enough to grant what is not claimed, to the injury of the party.

☞ Judge Hammond, in his circular, answers the question why the Radicals nominated him, by saying because he is a good man.

If true, this is the first instance of the kind in Radical experience. The Radical custom is against your cause, Judge.

☞ Democrats, there is no risk in voting for Alexander and his ticket. No one doubts that he will make a good, economical, honest and attentive Mayor, *while his election secures the triumph of the Democracy.*

But to vote for Hammond is to peril the Democracy, to help Radicalism, to encourage the Bullock and Blodgett faction, and to risk the horrible possibility of negro rule.

☞ One hundred out of the hundred and seventy-six legislators of South Carolina are negroes, one of the Supreme Court justices a negro, three out of the four Congressmen elect are negroes, the Secretary of State is a negro, the Lieutenant-Governor a negro, and the Governor an old "pal" of Bureau Howard. Before such an administration it is time for respectability to shudder and wealth to hide.

☞ We are clearly of the opinion that, notwithstanding the passage of the act declaring the levying of the poll-tax unconstitutional, every person who votes in the coming State election, who has failed to pay all taxes which have been required of him, and which he has had an opportunity of paying for the twelve months preceding the election, will be guilty of the offense of illegal voting. [*Augusta Chronicle.*

☞ Vote against Hammond—
Because he is a bolter.
Because he is a disorganizer.
Because he is the Radical nominee.
Because he is the candidate of the party of negro policemen and negro aldermen.
Because he is the candidate of the Bullock and Blodgett faction.

African Police.

A desperate effort is being made to saddle a black city government upon us, through the agency of Judge Hammond, who inexplicably lends himself to this flagitious movement, by his candidacy.

We call attention to the article in another column, from the Savannah News, that gives an insight into the terrible status of this same sort of rule in Charleston. Let it be read carefully. And then let Democrats ask themselves if they will vote for the candidate who helps a deadly consumation.

Forney Gets a Grab at the Georgia Treasury.

Yesterday Treasurer Angier paid the virtuous Forney $216 for publishing the proclamation relative to the lease of the State Road. This amount was paid on the Governor's warrant.

We fear very much that it will be a long time before Forney's paw lets loose his grip on our Treasury, now that he has got a good hold. Governor, for Heaven's sake, be careful.

☞ Judge Hammond says he has been asked if he has given the Radical party any pledges. He replies by saying he has, and mentions the good things he has promised to do.

The Judge has learned Radicalism to little purpose, if he has not found out that public good is the last thing Radicalism seeks. Judged by its fruits it is evil. Nor can his candidacy purify it. Let him not wonder therefore if in the light of its wicked record, even Judge Hammond should incur suspicion when he leads its movements.

Board of Health on Water Works.

April last the Board of Health transmitted to the Mayor and Council a paper containing the subjoined:

"In relation to the important matter of drainage and sewerage, the Board has given the whole subject much consideration, and are of the opinion that no general system can be adopted commensurate with the present necessity and growing wants of our city till we have a sufficient supply of water."

Keep up the Stock.

We call the attention of the City Council to a matter involving danger to life and limb.

Cows are permitted to wander the streets free. In no other city of this size is such a thing permitted. Every lady who has anything red about her attire is liable to be gored by cows. Our attention has been called to the matter by those who have suffered. Several ladies have barely escaped with their lives.

The matter needs remedy.

☞ Georgia, it seems, is to be carried for Grant, Bullock & Co., by keeping the polls open three days, so that migratory negroes can be accommodated "early and often"—and by leaving the ballot-boxes in charge of Bullock's bummers and agents for three nights after the election closes! Was there ever such a mockery on elections—such an outrage on the people, and the *principle* of the ballot—as these solemn farces enacted by Congress in South Carolina and Georgia?—*Hartford Times.*

Public School-Houses.

The proposition to issue city bonds bearing seven per cent. interest, to build public school-houses, is to be voted on to-day. The tickets having on them the word "Schools," is understood to favor their issue. Those having on them "No Schools," will be counted as against the proposition.

If we can have no public school-houses, we can have no public schools worth boasting of. Hence, the vote to-day will virtually pronounce for or against the proposed system of public schools.

Public school-houses are indexes of the morals, intelligence and public spirit of modern cities. They are ornaments to any city. Cities without them are regarded as behind the age. Shall we have them.

REPUBLICAN TICKET

For Mayor—Dennis F. Hammond—5th Ward—For Aldermen—Asa L. Harris, Jackson McHenry.

The above ticket is a specimen of those in circulation for use by the Hammond-Republican party. Politics bring about strange occurrences.

Who would have believed ten days ago that the Democrats of Atlanta would be urged to vote for a municipal ticket with the name of Dennis F. Hammond at the head, and underneath, A. L. Harris, the rankest Radical of the Bullock and Blodgett faction, and the illegal and interloping instrument in Bullock's hands for tinkering the Georgia Legislature into shape, and Jackson McHenry, a negro, under the ominous head of "Republican Ticket."

It staggers credulity. It needs a man to see it to believe it. And we see and believe it sadly.

But we can't vote that ticket. That monstrous political association may suit the Judge and his new allies, but it don't suit us to pat him on the back and say he is right.

☞ Old party issues have been lost sight of not only in Missouri, but throughout the entire north valley of the Mississippi. In Minnesota, for instance, at a public meeting in Olmstead county, which gave Mr. Wilkinson nearly fifteen hundred majority two years ago, a prominent Republican was interrupted in his attempt to give the usual history of his party, and claim for it the credit of saving the country, etc., etc., by a sturdy old farmer, who wanted to know something about the tariff. The speaker replied that he did not propose to discuss that question just now. That in fact he had not given it serious consideration, and proceeded on in the customary vein. He was again interrupted by the assertion that his audience knew all they wanted to know about the Republican party. But they did want to know something about the tariff, and was admonished that if he couldn't instruct them on that point, he had better go home and send some one to them who could. The revolution in that district was complete. It went revenue reform by about two thousand majority. Representative Wilkinson, in his conversation with the President, referred to this as an indication of the drift of public opinion, and he does not hesitate to say publicly that his constituents are ready now to ignore all the issues of the past ten years for the purpose of taking up what they very properly call the live questions of the present.

A Word to the Negroes.

We have never written words more regretfully than those we pen against Judge Hammond. But our duty requires us to lay before the people in a proper light his reprehensible candidacy for Mayor. And that duty, painful as it is, must be discharged by us.

On Monday night we saw on the street a pitiful spectacle. A small procession of yelling negroes, waving lighted torches and bearing transparencies, enjoyed their rights and marched the streets. It was pleasant amusement no doubt. But their transparencies were not funny. They killed Judge Hammond with every Democrat who saw them. The inscriptions blazed out, telling that Judge Hammand was their candidate, that his strength was 3,000 and Alexander less than a hundred, and oh! most marvelous of all, bragged of what carpet-bag rule had done for the country.

As we gazed we thought, with pity, to this has ambition brought an honored Democrat. Radical negroes, under Hammond's lead, grasping for control of the city, and singing pæans to carpet-bag corruption, presented a strange sight indeed. Is the Radical negro vote so valuable that it must be thus pandered to? But there are a great many Democratic negroes who talk a different tale.

But there is another side to the question. We are informed that when the ward nominations took place, Judge Hammond said he wanted no "bald-headed, stinking negro" to vote for him, then or elsewhere.

The freedmen had better look into this matter. Their leader may not be as much a friend as he seems. Or if he is, the Democrats had better look to it that the Radical purposes of that band of shouting negroes that claim Judge Hammond as a leader, may not result in the city's welfare.

City Schools.

The system of public schools proposed to be inaugurated by the City Board of Education will not be interferred with or overridden by the system of schools to be provided under the general law of the State.

The State, by a general law, cannot provide schools of a high character as are needed and demanded in cities. While the cities will get their distributive share of the fund raised by State taxation for school purposes, they must go further: they must provide for the support of a system of schools adequate to meet the needs of a city population. City schools must be kept open ten months in the year. The curriculum of studies must be more extensive than is proposed in the schools designed for the rural population.

Hence the necessity of the local city Board. Hence the necessity of incuring a greater expense in supporting city schools than is contemplated in the general State school bill. Hence the chartered privilege granted to Atlanta, by the same legislature that passed the general school bill, to establish and control a city system of schools. Atlanta can do more and better for herself in this school business than the State can do for her. The State does not design to arrest the progress of the city by subverting a system of city public schools superior to those she can inaugurate, and substituting in their place a set of schools she can only support three or six months in the year.

There are Public Schools in operation in Columbus and Augusta, Ga., in Charleston, S. C., in New Orleans, Nashville, Memphis and Natchez, whose returns are not before us. Selma, Ala., has also a successful system of city schools.

So with numerous other places in the South and North. Wherever the public school system has been tried in cities, it has always (without a single exception) been popular.

Can Atlanta afford to delay a year or two years, under the plea of inability or poverty, and maintain her respectability among her sister cities.

The Election To-day.

To-day decides the welfare of Atlanta for another twelve months. It behooves the thinking voters to weigh well their duty.

Under Democratic rule the city has done well. Our taxes are but one per cent. Our city is splendidly progressive. In other cities under Radical rule the taxes run from two to four per cent. We are encouraged, therefore, to continue Democratic rule. The matter rests with us whether the Radicals shall get a hold upon the city government. Without Democratic votes the Radicals are powerless. Entirely united the Democracy can have the city control.

Does any one believe for a moment that if the Radicals had the power they would give one foot to the Democrats? Then let us yield nothing.

How stands the question? The Bullock and Blodgett faction, that has only ruled to ruin, that has brought the State Road to its marrow-bones, and played the wild with the State's interests, has placed its greedy eyes upon this city, the central strong-hold of the Democracy. This gained, their power at the seat of government will be complete, and woful times may be expected.

To insure this thing, the faction fixed up a ticket of State Road and organ men, and bid for the negro vote by nominating two negro candidates for Aldermen. What mattered it to them who they put in place so that thereby their success was secured? This dangerous ticket was successively topped by strong Republican names, but the thing was too plain and foul. Thank God, there are honest Republicans, and we own it gladly. Republicans, virtuous enough to refuse the job, were found.

Then when this attempt to give the city to mongrel and partisan rule was almost dead of its weakness, out comes Judge Hammond, a Democratic bolter, who it is said voted a Radical ticket last year, to divide the invincible, if united, Democracy.

Like lightning the chance was seized. The dying crusade revived. The Bullock faction improved the auspicious event, and to fasten matters, hoisted the erratic Democrat as the leader of the diseased ticket. And what honest Republicans refused to do, a Democrat undertook. This candidacy immediately vitalized the hostile movement, and gave hope to the abhorrent attempt at a mongrel dynasty in the interest of the faction that has damaged the State.

Democrats, we appeal to you, if in all solemnity, a Democrat could serve a fitterer, more deadly and more reprehensible purpose? Will you vote for a man, who, for personal aggrandizement, will thus forfeit his party allegiance, and accept the leadership of men whom he professes to condemn? Will you vote for a man whose success is a party measure of your enemy? Will you help to put into power a man who rests under the dangerous obligation of Radical support, and will owe his success, if successful, to that support? That obligation will be a shirt of Nessus to an honest man. AFRICAN RULE.

How it Works in Columbia, South Carolina—The Adventures of an Honest Georgian who fell among Thieves—A Hint to Atlanta of what the Success of the Hammond Republican Ticket will Impose on Us.

We alluded in our issue of Tuesday last to the arrest of a gentleman of this city by negro policemen in Columbia, South Carolina, while passing through that place on a purely business trip. The gentleman in question is Mr. William Wells, one of our most respected citizens, and the following are the facts of the case as we gather them from the statement of Mr. Wells himself.

It seems that he arrived at Columbia, from Sumter, and registered at the Columbia Hotel. Suffering from a severe headache brought on by travel and loss of sleep, he proceeded to a barber shop for the purpose of getting shaved and having his head bathed. Whilst awaiting those preliminaries which are indispensable to a first-class tonsorial manipulation, he was approached by a coarse, brutal-looking negro dressed in a shabby blue uniform, who inquired as to his place of residence. Mr. Wells thought the question rather impertinent, but answered it politely.

The unbleached "specimen of a nation's magnanimity" was far from satisfied, but with that detestable officiousness which comes of beastly ignorance, continued to ply his intended victim with questions. This was carried to such an unpleasant extent that Mr. Wells flatly refused to be catechized any further, and requested the distinguished offshoot of the Freedmen's Bureau to show the authority by which he cross-examined gentlemen who were strangers. This Cuffee refused to do, but ordered the barber to suspend his shaving operations. Mr. Wells appealed to the foreman of the shop to know what all this meant, and was informed that the animated piece of ebony was a policeman. He then gave his name, and the name of the hotel at which he had registered. Our friend, supposing that this was an end of the matter, went quietly to his room in the hotel, disgusted beyond measure with the whole affair. But it seems the pranks of this colored policeman—this parody on human nature—had just begun. He had gone to the Mayor of the city and informed him that he had discovered one of the pickpockets who had occasioned so much trouble on the Fair Grounds; and shortly afterwards two men entered the apartment of Mr. Wells, and, after appropriating a couple of chairs, and making themselves otherwise very much at home, informed him that they were detectives, and desired to know his place of residence, his business in Columbia, and his place of destination. He explained these points in a very few words, and in such a straightforward manner that one of the men expressed himself as being perfectly satisfied. Whereupon the two "detectives" apologized, and withdrew. Shortly after this, a party representing himself as the Chief of Police came to the room of Mr. Wells and apologized for the annoyance to which that gentleman had been subjected; and pretty soon the proprietor of the hotel also came in and apologized.

Imagining that the farce was now over, and having some business matter to look after, Mr. Wells left his room and was going out of the hotel into the street, when he was stopped by a person who introduced himself as the Mayor. This man professed to regret the affair very much, and was profuse in his apologies, and promised that Mr. Wells should be subjected to no further annoyance. Entering into conversation, the Mayor and Mr. Wells took seats by the door, and while thus engaged, they were interrupted by the return of the negro policeman, who had occasioned the trouble in the first instance, accompanied by a magistrate and a black constable with a warrant. The latter stepped up to Mr. Wells and informed him that he was under arrest, whereupon the Mayor interferred and said that he would become responsible for the gentleman. The negro policeman, not relishing the turn of affairs, grew so impertinent that the Mayor caused him to be arrested and carried to the guard-house. He went off vehemently protesting that he was only doing his duty, and that Mr. Wells was a pickpocket. The office of the hotel was crowded with guests and visitors, and the mortification of Mr. Wells may be imagined. His situation was rendered doubly unpleasant by the fact that he was an entire stranger in the city, and without friends to whom he could apply for help. Thinking the matter over, it occurred to Mr. Wells that Mr. E. Hope, a merchant of Columbia, upon whom he had called on business, would probably serve him a good turn by vouching for his character, and perhaps furnish bail if any should be required. Accordingly, accompanied by the Mayor and one of the detectives named Gurley, Mr. Wells called on Mr. Hope and stated his situation. To his astonishment, Hope utterly repudiated all knowledge of him, and refused to lend him the least assistance. Mr. Well's case was now almost hopeless, considering the character of the parties with whom he had to deal, and as the last resort, he concluded to send telegrams to the firm of which he was the representative, without much hope, however, of receiving an answer in time to reach him before the following Sunday—the day on which these official pranks occurred being Saturday.

After forwarding the dispatches, he was conducted back to the hotel by the Mayor and Detective Gurley, where they met the Chief of Police. Once here, instead of allowing Mr. Wells to proceed quietly to his room, they required him to sit in the public office of the hotel, the observed of all observers. In the meantime, the bachanalian propensities of the model officials began to become apparent, and they varied their duties as public guardians of the law by imbibing, at very brief intervals, unholy quantities of regular red-eye Radical whisky. The result was that the Mayor soon added to his other accomplishments the imbecility of drunkenness, and the Chief of Police and the detective, Gurley, under the influence of the liquor, allowed themselves to be swayed by that grand plank introduced into the Radical platform by Ben Butler—to-wit: Roguery. Under the pretence of examining his baggage, the Chief of Police accompanied Mr. Wells to his room, and at once began an attempt to black-mail him.

"Do you belong to any secret society?" enquired this blooming Police Chief.

"I am a Mason," replied Mr. Wells.

"Ah! so am I—so am I. Now look here, you are in a bad fix, and conviction will send you to the penitentiary. I can help you, and, as a brother Mason, will do so; but you must 'come down,' you know."

Mr. Wells said he had very little money, and had expected to draw in Savannah; and he supposed he could spare twenty-five dollars.

"Well," said the Chief, "don't you trust Gurley. I'll go down and get the Mayor off, and then come back and put you through to Charleston. But, now, *don't* you trust Gurley."

With this pathetic adjuration, he went out locking Mr. Wells in. In a short while Gurley came up, unlocked the door, and proceeded to follow the example of his illustrious predecessor in endeavoring to black-mail Mr. Wells. Between them these miserable specimens of Radical roguery and rascality would undoubtedly have succeeded in extorting money from their victim, but for the opportune arrival of the Chief Constable of the State. This gentleman—a worthy exception—at once assumed the responsibility of answering for the appearance of Mr. Wells, and the Mayor and his official pimps slunk off to find some other man to rob.

Mr. Wells says he could not be induced, at present, to sing that good old song, "Hail Columbia."—*Savannah News.*

B. C. YATES' GRAND RAFFLE AND SALE AT RINGGOLD, GA.—We call the special attention of our readers to the advertisement of B. C. Yates, which appears in another column. Mr. Yates is well known, and is a man of strict integrity in all his business transactions, and those who purchase tickets in his enterprise, can rely on his acting in perfect good faith with them. His object is to effect a sale of his property at a fair price, not speculation. The house, which is offered as the capital prize, is situated in the best business part of Ringgold, is 25 by 100 feet, built of brick, tin roof and granite front, and is one of the best and most conveniently arranged houses between Nashville and Atlanta. The dwelling consists of four rooms over the store, very convenient, and finished off in neat style. Well in the counting-room, with pump to supply the dwelling. dec4-dtf

Notice to Voters.

MAYOR'S OFFICE, December 3, 1870.

Whereas, It was determined by the Mayor and Council of the city of Atlanta, at their meeting on the 2d inst., that two questions of great importance, to-wit: the establishment of Public Schools, and the erection of Water-Works should be submitted to the people of said city for their adoption or rejection, and the City Council having directed that the following card be published in all the city papers until, and including, Wednesday next:

To the Legal Voters of the City of Atlanta:

By the action of the City Council of Atlanta, you are requested to express on your ballots at the Municipal election on next Wednesday, your approval or disapproval of the establishment of Public Schools in said city. If a ballot having "Schools" on it is voted it means the issuing of one hundred thousand dollars in city bonds for the building of school houses in the city of Atlanta, and a ballot having "No Schools" on it, means opposition to the issuance of said bonds. The candidates for Mayor and Council are requested to have their tickets printed to conform to the above arrangement.

And upon the subject of Water-Works, for the purpose of informing the citizens as to what the probable cost of erecting the same would be, it was resolved that the amounts of the different bids which had been submitted to the City Council for the erection thereof, should be published in the city papers, and that the voters at the municipal election, on Wednesday next, should be requested to endorse upon their tickets, the words "Water-Works," or "No Water-Works," and that the managers of said election be requested to keep a correct account of the same.

The bids for bringing the water from South River were as follows:

$481,500, $435,440, $345,837, and $38,000; and to bring the water from the Chattahoochee, would cost a great deal more.

To the end, therefore, that the citizens should be fully informed upon said subjects, you are requested to publish the foregoing as requested in said resolutions, and the citizens are most respectfully and earnestly requested to make said endorsements upon their tickets.

WILLIAM EZZARD, Mayor.

SAVANNAH, November 22, 1870.

ST. CLAIR DEARING, Esq., Superintendent of Agencies South, American Life Insurance Company of Philadelphia:

Dear Sir: I take pleasure in thus publicly expressing my thanks for the prompt settlement—twenty days before it was legally due—made by the company you represent, on the policy for twenty-five hundred ($2,500) dollars, taken out in February last, on the life of my late wife, Mrs. Mary Waldner, which sum I have this day received from you.

To my friends and the public generally, I conscientiously recommend the American as one of the oldest and most reliable companies in the country.

Very respectfully,

GRAND JURY PRESENTMENTS,

FULTON SUPERIOR COURT—October Term, 1870.

We, the Grand Jury of Fulton county, for the October Term, 1870, would make the following general presentments:

We have examined the books of the Clerk, the Sheriff, the Ordinary, and the Treasurer, and find them neatly and correctly kept.

We find the roads of the county in good order, and the bridges safe.

There are one hundred and seven (107) inmates at the almshouse, who are apparently happy and satisfied with their condition. Only two are reported to us in feeble health, and they have all necessary medical attention.

Slight repairs are needed on some of the buildings, and comfortable winter clothing will have to be provided for several of the inmates. The children, mostly girls, made a creditable appearance. They attend school regularly, and under their teacher, Miss Donaldson, are making fair progress in their studies. It would be of great benefit to such as show a disposition to improve themselves if they could be provided with books of instruction. The management of Mr. W. Y. Langford is entirely satisfactory, and he appears to feel a real interest in those entrusted to his care.

We have examined the Jail, and find it as neatly kept as the circumstances will permit, and join with previous Grand Juries in pronouncing the present structure unsafe without a strong guard.

We would recommend the issue of the Thirty Thousand Dollars of County Bonds authorized by the General Assembly, said Bonds to bear 8 per cent. interest, and that the entire proceeds from sale of said bonds be expended in the erection of a Jail of granite, which will answer the purposes of the county for years to come.

We are gratified to see that the finances of our county are in such good condition. All the checks on the Treasurer are promptly paid.

Our bonded debt is small, falling due as follows:

April 1st, 1871	$7,600 00
April 1st, 1872	8,400 00
Showing a total of	$16,000 00

The County has a taxable property of nearly Fourteen Millions, which will recommend the Bonds, proposed to be issued, to capitalists as an investment.

Our taxes are light, compared with almost any county in the State, which shows prudence and judgment in the administration of our affairs.

We are pleased to see the evidences of good order which are so apparent.

The number of prisoners, and those undergoing sentence, is smaller than at any time for some years past.

In taking leave of His Honor, Judge John L. Hopkins, we tender him our thanks for his fair and impartial administration of justice, and for the steady and persevering way in which he has conducted the business of the Court during the session.

To the Solicitor General, E. P. Howell, we extend our warmest acknowledgements for his uniform courtesies and his cordial and free intercourse with us.

Also, to Patrick Fitzgibbons, we feel indebted for his prompt and continued attention to the wants of this body.

We recommend that the foregoing Presentments be published.

Patent Medicines.

READ!

IT is well known to Doctors and to Ladies, that Women are subject to numerous diseases peculiar to their sex—such as Suppression of the Menses, Whites, Painful Monthly "Periods," Rheumatism of the Back and Womb, Irregular Menstruation, Hemorrhage, or Excessive "Flows," and Prolapsus Uteri or Falling of the Womb.

These diseases have seldom been treated successfully. The profession has sought diligently for some remedy that would enable them to treat these diseases with success.

At last that remedy has been discovered by one of the most skillful physicians in the State of Georgia. That remedy is

BRADFIELD'S FEMALE REGULATOR.

It is purely vegetable, and is put up in Atlanta, Ga., by Bradfield & Co.

It will purify the blood and strengthen the system, relieve irritation of the kidneys, and is a perfect specific for all the above diseases, as a certain cure as quinine is in Chills and Fevers.

For a history of diseases and certificates of its wonderful cures, the reader is referred to the wrapper around each bottle.

Every bottle warranted to give satisfaction or money refunded.

LAGRANGE, GA., March 23, 1870.

BRADFIELD & Co., Atlanta, Georgia:

DEAR SIRS: I take pleasure in stating that I have used, for the last twenty years, the medicine you are putting up, known as DR. J. BRADFIELD'S FEMALE REGULATOR, and consider it the best combination ever gotten together for the diseases for which it is recommended. I have been familiar with the prescription, both as practioner of medicine and in domestic practice and can honestly say that I consider it a boon to suffering females, and can but hope every lady in the land, who may be suffering in any way peculiar to their sex, may be able to procure a bottle, that their sufferings may not only be relieved, but that they may be restored to health and strength.

With my kindest regards, I am, respectfully,
W. B. FERRELL, M. D.

We, the undersigned, Druggists, take pleasure in commending to the trade Dr. J. BRADFIELD'S FEMALE REGULATOR—believing it to be a good and reliable remedy for the diseases for which he recommends it.

Dr. Prophitt's Celebrated Liver Medicine.

It is purely vegetable, and will act udon the Liver and Kidneys as promptly as Calomel and Buchu, without any danger of salivation or destruction of the bones.

Parties taking this medicine need not fear getting wet, or any other reasonable exposure.

Symptoms of Liver Disease:

Headache, Dull Feeling or the Blues, Sour Stomach, Sick or Nervous Headache, Heartburn, Indigestion or Dyspepsia, Bad or Bitter Taste in the Mouth, the skin has a thick, rough feeling, and is darker than usual, Costiveness, Melancholy Feelings, Cramps, Cold Feet, Colic, Dysentery or Diarrhea, Chills and Fever, and Piles. In fact, where the Liver is out of order, you are liable to every disease that is not contagious.

Prophitt's Liver Medicine, if taken properly, will prevent and cure any disease resulting from a deranged Liver.

It will regulate its functions and thus cure all diseases caused by the failure of its healthy action.

It has been used for a great number of years, and has given universal satisfaction.

There is no brother or son claiming to have the original receipt. It is put up in both Powder and Fluid form.

FAIRBURN, GA., September 4, 1868.

DR. O. S. PROPHITT:

SIR: My wife has been an invalid for fifteen years. Doctors all agree she had "Liver Disease." In connection with their practice she used various noted remedies, none of which seemed to do any good. Sometime ago I procured a bottle of "Liver Medicine," of your agent here, C. A. Harvey, which being given according to directions, has effected a complete cure.

GEO. L. THOMPSON.

ATLANTA, GA., July 18, 1870.

MESSRS. BRADFIELD & CO.:

GENTLEMEN—Last year, during my travels in Alabama and Southwest Georgia, I contracted chills and fever, and my general health became very bad. I tried various remedies, and among others Shallenberger's Pills—all to no purpose. I was troubled with intense pain in the small of my back, and for months I did not have a moment's rest. I had well nigh despaired of recovering when a friend recommended me to take Dr. Prophitt's Liver Medicine. I did so, and one bottle has cured me; and to-day I feel like another man. I consider it one of the best medicines for general use now put up, and, without any reservation, recommend it to the afflicted.

I am, gentlemen, very respectfully, yours, etc.,
O. M. HARRALSON.

DR. PROPHITT'S

Dysentery Cordial

Is one of the most valuable compounds now put up for Diarrhea, Dysentery, Cholera Infatum, or Cholera Morbus.

This medicine has been in use for years, and gives universal satisfaction.

The most delicate child may take it with impunity.

COVINGTON, GA., November 9, 1867.

DR. PROPHITT:

Having a severe attack of Dysentery during the past summer, I was induced to use your Dysentery Cordial, and derived therefrom immediate and permanent relief. It gives me pleasure to recommend this remedy to all who may be so attacked, believing that, should the directions be followed, relief would surely be obtained.

Yours, etc.,
O. S. PORTER.

CUSSETA, TEXAS, 1869.

DR. PROPHITT:

DEAR SIR—Your Liver Medicine and Pain Kill It is a complete success.

J. L. WHITTLE.

PROPHITT'S Pain Kill It!

This is the celebrated medicine that run Perry Davis' Pain Killer out of the market, wherever it was sold. Davis made Prophitt change the name from Pain Killer to Pain Kill It.

For Rheumatism, Neuralgia, or pain of any kind, it has no equal.

For Cuts, Bruises, Burns, or old Sores, it is the best thing you can use for a dressing.

For Snake Bites or Stings of Poisonous Insects, it is a perfect antidote.

It is good for Colic, Colds, Coughs or Bowell Complaint. Its name indicates its nature fully. It is truly DEATH to pain.

Manufactured and sold by BRADFIELD & CO., Atlanta, Georgia, and by all Druggists.

NEWTON FACTORY, GA., November, 1867.

DR. PROPHITT:

Last summer my horse sprained his ankle severely, causing the whole leg to swell to about twice the natural size, and rendering him almost helpless; two applications of your Anodyne Pain Kill It thoroughly cured it.

JOHN B. DAVIS.

DR. PROPHITT'S Fever and Ague Pills,

The best Antidote for Chills and Fever known. Cures warranted in every case or money refunded. Purely vegetable.

DR. PROPHITT'S Anti-Bilious Pills

Will relieve Headache, Nervousness, Jaundice, and all other derangements of the Liver. Purely vegetable.

Manufactured and for sale by BRADFIELD & CO., Broad Street, Atlanta, Georgia, and for sale by all Druggists of Atlanta, Georgia, at manufacturer's prices.

CERTIFICATES:

We, the undersigned, have used Dr. Prophitt's Preparations and take pleasure in recommending them to the public, as being all he claims for them:

HOGS.—Numbers continue to be brought to and carried through the city.

TE DEUM LANDAMUS.—The Senate adjourned *sine die* yesterday, at one o'clock, P. M.

TRIAL.—The trial of W. E. Crosby has been set down for Thursday, before Judge Spencer.

TAXES.—A large number of persons settled up their taxes yesterday. There were some twenty-five or thirty sales of lots for taxes.

CALABOOSE.—Twelve sojourners we found registered yesterday. Efficient and attentive officers run this establishment.

RECOVERED.—Officers R. B. Hutchins, and P. Owen, captured below Decatur, the horse that was stolen from a colored man a day or two ago.

LOSS.—We were unable to ascertain the loss by the fire of Monday night. Variously estimated at from six hundred to one thousand dollars.

STREET FIGHTS.—The election, or something caused the blood to run warm yesterday: consequently, Whitehall street was made lively by several fights.

THE SAVANNAH BANK AND TRUST COMPANY.—Liberal inducements are offered by this Company to planters and others holding cotton, to make their consignments to them. See their advertisement in another column.

CANDIDATE.—This reporter met a certain candidate for Alderman yesterday morning, who was looking as happy as a lean pig in a sweet potato patch. By this time to-morrow he may look as melancholy as the island of Robinson Crusoe.

SUPERIOR COURT.—On account of the elections to-day this Court has been adjourned over until Thursday morning. The Grand Jury has been discharged. The Petit Juries have been discharged until the third Monday in this month.

WHY IS IT?—That a merchant thinks it necessary to have a sign over his door, or a bolt of calico hung over his window, yet "can not see it" when asked to put an advertisement in a paper that is read in hundreds of families in the city, and all through the country?

KILLED.—A fireman by the name of Wyng, was killed on the Engine Texas, on the W. & A. Railroad, on Monday. He was out on the engine, oiling it when he slipped up and was caught by some of the machinery and killed.

RECOVERED.—Mr. Tom. Castillo, has recovered goods which were taken from Messrs Chamberlain & Boynton, to the amount of about one hundred and nine dollars and thirty-five cents. He turned them over to the proper authorities.

WATCH OUT.—A gentleman, whose veracity cannot be doubted, informs us that a number of colored people came down the State Road yesterday. A sharp watch should be kept, and all, either white or colored, who attempt to do any illegal voting, should be dealt with to the full extent of the law.

RUNAWAY.—A couple of horses attached to a wagon, became frightened yesterday at a freight train passing over the bridge of the Georgia Railroad, across Butler street. They dashed down that street, and landed the wagon in the ditch near the planing mill. No damage except the breaking of the tongue.

ATLANTA, with reluctance, returns to Athens one of her loveliest daughters, Miss L——. Her sojourn was short, but appreciated. In order to requite her absence, Atlanta sends one of her loveliest daughters, Miss B——. May Miss B. return to Atlanta, bringing as many hearts as Miss L. carried from our city.

WHAT HOUSE?—A traveller slightly under the influence of Benzine, gave his experience at one of the public tables in the city, as he went down the Georgia Road last evening. He stated that they served up for breakfast what he supposed *they* intended for buck-wheat cakes, but *what he* mistook for Jew David's Strengthening Plaster.

IT is to be hoped every lady in Atlanta, old and young, and every girl who feels an interest in the Confederate Cemetery, will contribute one or more articles to the Christmas tree. The simplest contribution will be acceptable. All contributions will please be sent in, at the latest, by the 14th inst., to either of the following committee:

Mrs. Dr. Grant, Mrs. E. F. Hoge, Mrs. C. H. Strong.

ATLANTA, December 6, 1870.—*Col. J. M. Ball, Foreman of the Grand Jury, present Term of Fulton County Superior Court*—DEAR SIR: I hereby tender you my thankful acknowledgments of the receipt of $40 25, contributed amongst the members of the Grand Jury, for the benefit of the "Old Fair Ground Poor School." Be certain that the money will be appropriately and faithfully used. Please tender the members of the Grand Jury my thanks for this very timely help to the poor children of the city.

I am, respectfully, MISS E. STERCHI.

HOOPTEEDOODENDO.—A great deal of fun and amusement can be seen at Cole's Opera House. Miss Jessie Tremont, by her pretty eyes, quiet and graceful movements, and excellent rendition of song, continues to be the popular favorite. Misses Clarke and L. Tremont are true and good in the parts assigned them. Miss Leslie is not doing herself justice; the excellent and pleasing manner in which she invariably renders her songs, entitles her to a position on larger boards. Boquet, excellent in her dances, has improved vastly in both dance and song. McVeigh, Frank and Melville are ever amusing, and come to time in all situations. A choice bill for this evening.

PUBLIC SCHOOLS.—This question will be voted on to-day. This reporter has nothing to say on the subject. Judging from the conversations of many, it would be inferred that the schooling or education of boys alone was thought of in the city. Give the girls just as fair a chance as the boys, say we. When you educate the girls, you give a permanent impulse to the onward movement of the race, which it can never lose. To make permanent our liberty, our girls must receive a high, liberal, religious education. Grecian liberty only failed when mothers were corrupted by the vices of the East. When Roman matrons abandoned the care of their children to nurses and school masters who were Grecian slaves, then it was that Romans lost all the freedom of the old republic.

RICHELIEU.—The large audience at DeGive's last night, appeared fully to appreciate Forrest. It was evident to all that there was mind in every line he uttered, matured by professional experience, constituting it a vivid and graphic performance.

He stood before the audience a weak old man, but with all that indomitable spirit which made him the hero in the field, as the foremost in the council, the crafty politician and the subtle churchman. In a few words we will but say that we doubt if any one ever conceived and executed the character of Richelieu, in so artistic and masterly a manner, as Forrest.

In Miss Lillie, Forest has an excellent support as a tragedy actress.

We advise all who can to see him. In his Othello, we are aware of no living actor who can approach him, and in his Lear he is equal, yea, superior to the best delineators of the part. In fact, he stamps all his plays with the impress of excellence, and exhibits a versatility not to be met with in any other great tragedian. Go and see Forest and you can but admire and join in the applause elicited by his walk, his entire self-possession, his characteristic appearance, and his classic attitudes.

WATER-WORKS.—Enterprising people, when they meet each other on the streets now, do not enquire "How do you do?" but the question instanter is, what do you think of Water-Works? South river, some say, is filthy; Peachtree creek, others say, is a puddle for frogs; many contend that the Chattahoochee is insufficient to meet the demand for our rapidly growing city; and other streams, we are informed, are full of mire, and many more are mere mixtures of mud and vegetable matter. We all want water, yet many are hard to suit. Some wish water as bright as crystal—crisp to drink, and soft to wash with; others desire it tepid and icy in Summer, warm in winter, or like Jack's ices in the hot days, and salutary, like Pease and & Wife's coffee, in cold ones. Some of our citizens wish Water-Works of the Holly plan; others prefer something different. Our Council in their meetings, talk learnedly of Elliptical, Rotary Power Pumps; Stand Pipes; plugs; Valves; Pressure guages; Regulating Cylinders, and a system of telegraphing by water.

The agents of different water-works companies are here talking water; the papers write about it, until this reporter's head is confused by water on the brain, and he dreams of destructive conflagrations, of the city laid waste, of individuals pecuniarily ruined, of insurance companies collapsed—all, all this for the want of water. He sighs for the fairy fountains of Aladdin's Palace, of Latona at Versailles, of San Ildefoso in Spain, and for those in the Garden of the Tuilleries in Paris.

Well, the city needs water—a full and reliable supply for household purposes, for street watering, yes, enough of it to keep the Gate City washed out and have its health and comfort promoted, and its beauty and attractiveness added to. Water costs something, and if the city goes in debt for it, city debts must be paid, for city bonds are hard to repudiate. But the matter will be decided to-day. And if the people now or hereafter decide to have water, may the city then boast of a sufficiency as pure as that which comes from where

"Rubied nectar flows in pearl and in diamond."

ATLANTA
Literary Female Institute.
Ivy Street, Atlanta, Ga.

Rev. J. E. Evans, D.D., and Rev. G. H. Pattillo, Proprietors.

THE exercises of this newly established Institution will begin January 3, 1871, under the following Board of Officers and Teachers:
REV. G. H. PATTILLO, Superintendent.
MRS. M. A. GLASS, Principal English Department.
MISS ————, Assistant English Department.
MISS AMELIA WILLIAMS, Instructress in Latin and Mathematics.
MISS URKIE EVANS, Instructress in Music.
MRS. L. M. PATTILLO, Instructress in Ornamental Department.
Resident French Teacher employed.
These teachers were educated at the Wesleyan Female College, Macon, Ga. We propose to make the Atlanta Literary Female Institute a first-class Boarding and Day School, for girls and young ladies. The course of study will be that, substantially, of the Wesleyan Female College, through the Sophomore Class, and the method of instruction will be thorough—thereby enabling young ladies who may so desire, to enter the Junior Class of that deservedly renowned Institution. The buildings, erected in 1865, but newly painted and fitted up, are sufficiently ample to accommodate sixteen boarding pupils, and to that end the rooms will be supplied with bedsteds, washstands, bureaus and matresses, etc., etc.—everything necessary to comfort, except bed clothing, which young ladies must furnish according to their wants. The Superintendent, with his family, the teachers and the boarding pupils will reside in the Institute—thus composing one family, not so large but that the wants and interests of all may be specifically looked after.
Application for board should be made immediately to the Superintendent.

TERMS:

Tuition in Elementary Classes, per month	$ 3 00
Tuition in Advanced Classes, per month	5 00
Tuition in French—teacher's price	
Tuition in Music and use of Piano, per month	6 00
Tuition in Drawing or Pastel, per month	3 50
Tuition in Oil Painting, per month	5 00
Board, including washing, lights and fuel, per month	25 00

These charges must be paid in advance of each month.
For further particulars, address the Superintendent, for the present, at Albany, Ga.

CANCER! CANCER!!

DR. W. L. HITCHCOCK,
OF MADISON, GEORGIA,
Makes a speciality of treating all persons afflicted with

CANCERS, SCROFULA,
Indolent, Ulcers, etc., etc.

HE has successfully treated CANCERS for the last TWENTY YEARS, without the use of the knife or any mecurial agent. He begs to refer those afflicted to the following certificates of persons who have been cured by his treatment. They speak for themselves. The question will be asked who is Dr. Hitchcock? To all such I will answer that I was born and raised in Georgia. For all of which I feel very proud. I am permanently located in Madison, Ga.

DR. W. L. HITCHCOCK: It gives me pleasure to give my testimony in regard to the wonderful effects produced by your Vegetable Cancer Plaster. About five years ago I became afflicted with Cancer, just above my right breast. From that time to August 1st, 1869, I had as many as ten or twelve Physicians to examine and prescribe for it, but all proved of no avail. I called on you about the first of August, 1869, and put myself under your treatment. I am happy to say that your Plaster removed the Cancer, and I am now entirely well. I cheerfully give this certificate, not for the purpose of applauding you, though I feel under lasting obligations to you for the cure, I do it for the benefit of all such as may be afflicted with this terrible malady.
FRANCIS A. CALLOWAY.
Rutledge, Ga., June 1, 1870.
Tested by Dr. J. F. JACKSON,
Dr. J. J. MONTGOMERY.

DR. W. L. HITCHCOCK: I do hereby certify that I have had a Cancer on the angle of my jaw for fifteen years, and have applied to a number of physicians for treatment, but without success. The application of your celebrated Plaster removed the Cancer in eight days from the time of application. It has now been nearly two years since I was cured. I cheerfully give this for the benefit of the afflicted.
T. P. PEACOCK.
Madison, Ga., June 1, 1870.

I do certify that I have been troubled with a Cancer on my cheek, near my under eye-lid for two years past. I applied to Dr. W. L. HITCHCOCK, who applied his celebrated Cancer Plaster, and was agreeably surprised to see the Cancer come out whole, the eighth day from application; I am now well, and my face entirely healed up. I advise all persons afflicted with Cancer to give him a trial.
ROBERT SHIELDS.
Madison, August 2, 1869.

I have been suffering with a Cancer of the large kind, on the back of my neck, called rose cancer, for the past three years. I applied to Dr. W. L. HITCHCOCK, of Madison, who put a plaster on the Cancer, and, in eight days, it come out entirely. I am now well, and have been since the Cancer came out, which was last fall.
M. W. COFER.
Rutledge, Ga., September, 1868.

DR. W. L. HITCHCOCK—Dear Sir: I am pleased to state that your Plaster has entirely cured the Cancer on my nose, which has give me so much trouble. I shall ever feel grateful to you for the success of your remedy.
MRS. LORINA STRATTON.
Madison, Ga., May, 1870.

DR. W. L. HITCHCOCK: I am pleased to certify that I have had a large Cancer on my right arm for twenty years, and have seen and advised with numbers of Physicians, who advised me to let it alone, as they considered the Cancer too far advanced to be subdued by remedies. I heard of you and made application for treatment, as a last resort, and to my great satisfaction your Plaster has taken out the Cancer, in eight days, by the roots, and the sore is now rapidly healing, and I entertain strong hopes of a speedy recovery.
J. F. BURNS.
Edgefield Court House, S. C.

DR. W. L. HITCHCOCK—Dear Sir: I do hereby certify that I have been afflicted sorely with Cancer fifteen years, and have tried many Physicians, spent a great deal of money—all to no purpose, I called on you, in Madison, last winter. The application of your Plaster has acted like a charm. I have the Cancer now in my possession, and the sore is all healed up, except one small place, which is healed. I beg to refer all persons afflicted to Dr. Hitchcock, at Madison, Ga.

DR. W. L. HITCHCOCK—Dear Sir: I am [happy to] certify that your remedies have cured the [Cancer on] my face and nose, that had given me so much [trouble] twelve years. It appears as sound as if I [never had] Cancer.
MRS. E. B. ST[illegible]
Newton County, Ga., April 23, 1870—P[illegible]

DR. W. L. HITCHCOCK'S
Liver Medicine.

I would also state that, in [addition] to my curing Cancers, I am in regular practice [of all] diseases, especially those peculiar to females, [for w]hich, from a long experience and extensive practice, [I] guarantee perfect satisfaction. I also keep [an as]sortment of my own manufacturing Family Medicines on hand, one of which is my celebrated [but I call your special attention to] my ALTERATIVE OF STILLINGIA COMPOUND FLUID EXTRACT; ALTERATIVE AND AND INDIAN HEMP, which cures the following LIVER TONIC. It invariably cures the Liver, Spleen, disorders: Chronic Torpid Liver, Dyspepsia and Kidneys, and Bladder. Diseases of the Skin. It Scrofula, Eruptions and Skin diseases. Some will ask, how can this one medicine cure all of these diseases, [illegible] so compounded as to answer all of the requirements of those symptoms, being compounded of the purest, most reliable Liver medicine, diuretic and disinfectants that the vegetable kingdom [affords. For] twenty years experience [I have used it in my] practice for the last 20 [years]. I used it in [my practice, and in the last six] months I have sold over $1,000 worth of it, and have yet to hear of the first complaint. I claim and have tried it, to be superior to any of the preparations of the day, for all the diseases that I recommend this medicine for. I have never advertised advertising nostrums and always been opposed, having been persuaded, for quack medicines, I have concluded to do so, for years, by my friends, to avail themselves of the benefit of the good of all the thousands of testimonials to the fit of it. I could medicine, but being satisfied that happy effects of it, and sustain itself, and all I ask is it will recommend an impartial trial. Take it by the direction to give it a fair trial, and if you do not find it all, direction on [the bottle, return it] to me for it, then I will agree to stop or more than the sale. [I sell the m]edicine in ONE and TWO DOALLAR bottles. I put up for persons and patients.

[Let no] one [who is suffering with Cancers] let the Doctor dishearten you. For Cancers [I will cure t]hem will, because they can't cure you the most will tell you that you can't be cured. [I have been] engaged in curing Cancers for twelve years, and I have failed but in one case, and that case was [one that] have medical aid. If you have a CANCER call and [see me; i]f I will tell you in a half hour if I can cure [it, and] see me charge nothing for examination, and if I cure you I will be reasonable in my charges.

CERTIFICATES.

[DR.] W. L. HITCHCOCK—Dear Sir: This is to certify [that] my wife and daughter, Mrs. W. H. Jones, of [Bac]on Point, Ga., and our cook woman, have used your Alterative Liver Medicine, and do all cheerfully [say] it has had a fine effect; has entirely relieved them of their liver affection. Dr. Cheeny, of Newborn, [attend]ed my little grandchild, who was laboring under an affection of the liver, and also was badly affected with Asthma. I learn he has been entirely relieved. Our cook woman is about the turn of life, and has been suffering with diseased liver, and general debility of the whole system, together with inflammatory rheumatism. She says she is entirely cured by the use of your Medicine. I cheerfully recommend it to the public, believing it to be a good medicine.
Yours truly,
REV. W. A. FLORENCE,
Pastor of the M. E. Church, South, Madison, Ga.

DR. W. L. HITCHCOCK—Dear Sir: I have used your Alterative and Liver Medicine, and have derived great benefit from it. Other members of my family have used it with like benefit, and I can confidently recommend it as a good remedy for the diseases you propose to relieve.
Yours, C. M. IRWIN,
Pastor Baptist Church.
Madison, Ga., September 6, 1870.

DR. W. L. HITCHCOCK—Dear Sir: I have had the misfortune to be afflicted with a liver and dyspeptic affection for the last twenty years. I have scarcely been able to eat, or digest my food without pain, and have often tried various remedies, but found no relief until I took a course of you Alterative Medicine. I am now well and healthy. I cheerfully recommend all persons who may be afflicted with indigestion, to give these Medicines a trial, and I am sure they will be relieved.
PHILIP SHOUSE.
Madison, Ga., December, 1869.

DR. W. L. HITCHCOCK—Dear Sir: I have been laboring under a dyspeptic and liver affection for a number of years past, so much so that I had reduced in flesh to a mere skeleton, and became cancerous, having a large one on my jaw, which had been treated for twelve years. I commenced treatment, or rather cure, for twelve years. I commenced your Alterative and Liver Medicine, which has effected a permanent cure. Your Cancer Plaster took out the cancer, and I am now well and hearty, and have been for two years. I recommend all persons afflicted with the above disease, to try your remedies.
T. P. PEACOCK.
Madison, Ga.

DR. W. L. HITCHCOCK—Dear Sir: This is to certify that I have, for the last eight years, been afflicted with a cancerous affection of the skin, which is [illegible] [illegible] by your Stillingia and Indian Hemp. I [cheer]fully recommend its use to all persons who may be thus afflicted. I find it to be all you represent it to be.
W. L. HUDSON,
Conyers, Ga.
September 3, 1870.

DR. W. L. HITCHCOCK—Sir: This is to certify that I have used your Cathartic Liver Medicine in my family for the last two years with the most happy results. I do not hesitate to recommend it to all those who may be afflicted with torpid condition of the liver, skin disease, scrofulous affection, etc. I find it to be all you represent it to be.

The Daily Constitution.

☞ The following lines, taken from the Rome Courier, are well understood in that section of the State:

"I'LL HANG MY 'ARP ON A WILLER TREE."

By a personal friend I was caught by the 'and,
And was led to a mountain 'igh,
And 'e showed me 'is prospect there,
And the places were fair to my eye.
So I'll 'ang my 'Arp on a willer tree,
And never will touch it agin,
And I'll vote for the man what greases me,
Because 'e 'as plenty o' tin.

An office I saw in that prospect fair,
And the picture is 'aunting me yet,
For plenty good pickings lay scattered around,
And didn't I like it—you bet.
So I'll 'ang my 'Arp on a willer tree,
And never will touch it agin,
For I'll vote for the man who showed it me,
Because I am after the tin.

Oh, General Young is a very nice man,
But 'e doesn't know 'ow to grease,
So I'll cling to the tail of my personal friend,
'Till the waters of Tartarus freeze.
And I'll 'ang my 'Arp on a willer tree,
And never will touch it agin,
And I'll fall in the Radical lines, you see,
Because they 'ave plenty o' tin.

Thus, one by one, do the mighty fall,
When troublesome times appear,
Like the summer vines from a cottage wall,
When winds blow bleak and drear.
So we'll 'ang our 'Arp on a willer tree,
And never will touch it agin,
If it chooses to fall in the Radical sea,
Why, there we'll let it remain.

ATLANTA, GA., December 5, 1870.

Editor Constitution: Will you allow me, through the columns of your valuable paper, to lay before your readers some items bearing upon the subject of water works, in relation to the cost and maintainance of the same—the income and advantages to be derived therefrom.

We will suppose the entire cost of the works to be $350,000, and that you raise that amount by the sale of city bonds at 80 per cent, there you have a debt of $437,500. At 7 per cent, the annual interest, would be $30,625. Now, let us see what you have to balance this large outlay.

The citizens of Atlanta paid for premiums on insurance in the year 1859, to insurance companies, the sum of 125,000 dollars, and I am assured by men well posted in this matter, that for the year 1879 the sum will be increased to fully 150,000 dollars. I am also informed by men in the insurance business, that 25 per cent. would be a very moderate estimate of the reduction that would be made by the introduction of good and efficient Water-Works. Thirty-three per cent. is not above the reduction which has followed the introduction of water in other cities and towns. Now, taking the amount of insurance for the present year, say $150,000, you have a saving to tax-payers of 37,500 dollars, more than enough to pay the entire interest upon the sum needed to build the works by 6,875 dollars.

Another item: Four of the railroads centering in this city employ constantly not less than one hundred and thirty locomotive engines to do the present business upon their roads, and if they should use the water, as all other railroads do, and at the same rates, the income from that source could not be less than $10,000 per annum.

Atlanta claims a population of 30,000 inhabitants; but admitting it to be only 25,000, and you allow five persons to one family, and if two-fifths of them take the water, and a charge of one dollar per month is made for the use of the water, you have $25,000 from that source.

The increase from Hotels, boarding houses, public buildings, stores, offices, bathing houses, stables, manufactories, etc. etc., could not be less than 24,000 dollars. Now the entire income would stand thus from Railroad Companies:

Railroad Companies	$10,000
Water to families	24,000
All other sources	24,000
Total	$58,000

The cost of maintaining the works,

Say interest	$30,625
Coal &c.	10,000
Two engines	2,200
Two Firemen	1,200
All other expenses	5,000
Total	46,025

Leaving a balance of income from the Works of $8,975, per annum, to which the saving in insurance of 37,500 should be taken into account, as well as the great advantages of water, for the efficient fire protection.

CANDOR.

FORSYTH, GA., Dec. 5, 1870.

Editor Constitution: DEAR SIR—The Radicals had a grand pow-wow here last Saturday. Tom Speer, Dunning, of Atlanta, and Fitzpatrick, of Bibb, spoke to the darkies. Tom told them of the bills he had introduced in the Legislature for their special benefit. Dunning, with foxy cunning, chided the old line Whigs for their alliance with their lifelong enemy, the Democrats; had been one of the latter himself, because there was no Republican party to unite himself with during his residence of a quarter of a century in Atlanta.

Fitz's principal theme was Ku-Klux, and that the proprietor of the Camp House here, Mr. Camp, refused to let him eat at his table. He couldn't make much of a "spach, because he hadn't had any breakfast."

The Rads nominated a full ticket for legislative and county offices, half black and half white, the former receiving the best offices for themselves, and putting the lighter colored on the tale end of their ticket. George Clomer and another *black* nigger were nominated for the Legislature.

Although the Radicals have several hundred majority in this (Monroe) county, we intend to run the race by earnest and effectual work. Our people are aroused, and we intend to succeed.

THIS Company has purchased the right to manufacture and sell "Doty's Gas Generator," in the States of Georgia, Alabama, Florida and South Carolina. The gas is generated by a simple chemical process without fuel or heat. Machines are made suitable for dwellings, printing offices, hotels, churches, halls and factories, in cities or in the country.

The gas manufactured from the "Generator" for beauty, safety and economy is unexcelled—the cost being about one-fifth of the ordinary coal gas. The machine is in successful operation and may be examined by the public at the office of the Georgia State Agricultural Society in Atlanta, where the undersigned will be glad to receive orders or give any information that may be desired. Dr. John Bull's

Great Remedies.

DR. JOHN BULL,

Manufacturer and Vendor of the Celebrated

Smith's Tonic Syrup,

FOR THE CURE OF

Ague and Fever,

—OR—

Chills and Fever.

THE Proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the safe, certain, speedy and permanent cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southwestern country to bear him testimony to the truth of the assertion, that in no case whatever will it fail to cure, if the directions are strictly carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller does for a week or two after the disease has been checked, more especially in difficult and long standing cases. Usually, this medicine will not require any aid to keep the bowels in good order; should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of BULL'S VEGETABLE FAMILY PILLS will be sufficient.

JOHN BULL'S Principal Office, No. 40 Fifth Cross Street, Louisville, Kentucky.

Bull's Worm Destroyer.

To my United States and World-wide Readers.

I have received many testimonials from professional and medical men, as my Almanacs and various publications have shown, all of which are genuine. The following letter, from a highly educated and popular physician in Georgia, is certainly one of the most sensible communications I have ever received. Dr. Clement knows exactly what he speaks of, and his testimony deserves to be written in letters of gold. Hear what the Doctor says of Bull's Worm Destroyer:

VALLANOW, Walker County, Ga., June 29, 1869.

DR. JOHN BULL:

DEAR SIR—I have recently given your "Worm Destroyer" several trials, and find it wonderfully efficacious. It has not failed in a single instance to have the wished for effect. I am doing a pretty large country prac'ice, and have daily use for some article of the kind. I am free to confess that I know of no remedy recommended by the ablest authors that is so certain and speedy in its effects. On the contrary, they are uncertain in the extreme. My object in writing you is to find out upon what terms I can get the medicine direct from you. If I can get it upon easy terms, I shall use a great deal of it. I am aware that the use of such articles is contrary to the teachings and practice of a great majority of the regular line M. D.'s but I see no just cause or good sense in discarding a remedy which we know to be efficient, simply because we may be ignorant of its combination. For my part, I shall make it a rule to use all and any means to alleviate suffering humanity which I may be able to command—not hesitating because some one more ingenious than myself may have learned its effects first, and secured the sole right to secure that knowledge. However, I am by no means an advocate or supporter of the thousands of worthless nostrums that flood the country, that purport to cure all manner of disease to which human flesh is heir. Please reply soon, and inform me of your best terms. I am, sir, most respectfully,

JULIUS P. CLEMENT, M. D.

BULL'S SARSAPARILLA.

A GOOD REASON FOR THE CAPTAIN'S FAITH.

READ THE CAPTAIN'S LETTER AND THE LETTER FROM HIS MOTHER.

BENTON BARRACKS, MO., April 30, 1866.

DR. JOHN BULL—Dear Sir: Knowing the efficiency of your Sarsaparilla, and the healing and beneficial qualities it possesses, I send you the following statement of my case.

I was wounded two years ago—was taken prisoner and confined for sixteen months. Being moved so often, my wounds have not healed yet. I have not set up a moment since I was wounded. I am shot through the hips. My general health is impaired, and I need something to assist nature. I have more faith in your Sarsaparilla than in anything else. I wish that that is genuine. Please express me half a dozen bottles, and oblige, CAPT. C. P. JOHNSON, St. Louis, Mo.

P. S.—The following was written April 30, 1865, by Mrs. Jennie Johnson, mother of Captain Johnson:

DR. BULL—Dear Sir: My husband, Dr. C. S. Johnson, was a skillful surgeon and physician in Central New York, where he died, leaving the above C. P. Johnson to my care. At thirteen years of age he had a chronic diarrhoea and scrofula, for which I gave him your Sarsaparilla. It CURED HIM. I have for ten years recommended it to many in New York, Ohio and Iowa, for scrofula, fever sores and general debility. Perfect success has attended it. The cures effected in some cases of scrofula and fever sores were almost miraculous. I am very anxious for my son to again have recourse to your Sarsaparilla. He is fearful of getting a spurious article, hence his writing to you for it. His wounds were terrible but I believe he will recover. Respectfully, JENNIE JOHNSON.

ARKANSAS HEARD FROM.

Testimony of Medical Men.

STONEY POINT, WHITE CO., ARK., May 23, 1866.

DR. JOHN BULL—Dear Sir: Last February I was in Louisville purchasing drugs, and I got some of your Sarsaparilla and Cedron Bitters.

My son-in-law, who was with me in the store, has been down with rheumatism for some time, commenced on the Bitters, and soon found his general health improved.

Dr. Gist, who has been in bad health, tried them, and he also improved.

Dr. Coffee, who has been in bad health for several years—stomach and liver affected—he improved very much by the use of your Bitters. Indeed, the Cedron Bitters has given you great popularity in this settlement. I think I could sell a great quantity of your medicines this fall, especially of your Cedron Bitters and Sarsaparilla. Ship me via Memphis, care Rickett & Neely. Respectfully, C. B. WALKER.

THE WORLD'S WONDER.

Dr. Abbett's Anti-Dyspeptic

—OR—

LIVER MEDICINE.

A SAFE and certain cure for all kinds of Liver Complaints, and all diseases and indispositions that originate from a diseased state or inactivity of the Liver, such as

Chronic and Acute Inflammations of the Liver,
Dyspepsia, Sick Headache,
Sourness of the Stomach,
Loss of Appetite,
Lowliness of Spirits, Colic,
Costiveness, Fever, Ague,
Billous Fever, Dropsy and Jaundice.

These Medicines are purely Vegetable, and perfectly harmless; but their efficacy is too permanently established in all the Southern and Western States to require any further recommendations. The wise will not fail to give them a fair trial—this is all that is asked.

LAGRANGE, GA., December 3, 1869.

MESSRS. CRAWFORD & WALKER, West Point, Ga.—Gentlemen: Having witnessed almost daily, for the last fifteen years, the great efficacy of the preparation you are now putting up, known as "Abbett's Medicine," it affords me pleasure to state that I know of no combination or preparation equal to the treatment of Liver Diseases of whatever character, and cordially recommend it to all who are suffering from derangement of the Liver, and especially the Dyspeptic.
I am, very respectfully, T. S. BRADFIELD, Druggist.

WEST POINT, GA., October 15, 1869.

MESSRS. CRAWFORD & WALKER—Gentlemen: I can honestly and confidently recommend L. B. Abbett's Liver or Dyspeptic Medicine, as prepared by you, to the favorable notice of the suffering public. Having used this Medicine myself in my family for twenty years, I can highly recommend it for removing pain or flatulency from the stomach, caused by indigestion. It also has a happy effect in removing constipation of the bowels. I believe it to be the best universal remedy the world has yet discovered for the above named diseases. With my best wishes to you in introducing this valuable Medicine to the public, I remain Yours truly, A. K. KENDRICK.

ROSADALIS.

The Great American Health Restorer, purifies the blood and cures Scofula, Syphilis, Skin Diseases, Rheumatism, Diseases of Women, and all Chronic Affections of the Blood, Liver and Kidneys. Recommended by the Medical Faculty and many thousands of our best citizens.

Read the testimony of Physicians and patients who have used Rosadalis; send for our Rosadalis Guide to Health Book, or Almanac for this year, which we publish for gratuitous distribution; it will give you much valuable information.

Dr. R. W. Carr, of Baltimore, says:

I take pleasure in recommending your Rosadalis as a powerful alterative. I have seen it used in two cases with happy results—one in a case of secondary syphilis, in which the patient pronounced himself cured after having taken five bottles of your medicine. The other is a case of Scrofula of long standing, which is rapidly improving under its use, and the indications are that the patient will soon recover. I have carefully examined the formula by which your Rosadalis is made, and find it an excellent compound of alterative ingredients.

Dr. Sparks, of Nicholasville, Ky., says he has used Rosadalis in cases of Scrofula and Secondary Syphilis with satisfactory results—as a cleaner of the Blood I know no better remedy.

Samuel G. McFadden, Murfreesboro, Tenn., says:

I have used seven bottles of Rosadalis, and am entirely cured of Rheumatism; send me four bottles, as I wish it for my brother, who has scrofulous sore eyes.

Benjamin Bechtol, of Lima, Ohio, writes I have suffered for twenty years with an inveterate eruption over my whole body; a short time since I purchased a bottle of Rosadalis and it effected a perfect cure.

Rosadalis is sold by all Druggists.

JOB PRINTING NEATLY EXECUTED AT THE CONSTITUTION OFFICE.

UNIVERSAL

Life Insurance Company,

—NEW YORK—

The Original Joint-Stock Life Insurance Company of the United States.

The business of this Company is EXCLUSIVELY confined to the Insurance of first-class healthy lives.

The Distinctive Feature

Of the Stock system of Life Insurance, as opposed to the Mutual, is a low rate of premiums for a stated sum insured, which is IMMEDIATE, SECURED and CERTAIN; in lieu of a high rate of premium with a promised dividend, which is DISTANT, CONTINGENT and UNCERTAIN; this so-called dividend being merely a return of a portion of the excessive and unnecessary premium charged in the first instance.

Illustration.

Suppose that an individual aged thirty desires to devote $200 a year for the purpose of effecting an insurance on his life; this amount will immediately secure him in the UNIVERSAL, the sum of $11,751, payable on his decease. This sum, paid to a company charging the ordinary mutual rates, would secure him the sum of $8,474—a difference immediately secured, in favor of the UNIVERSAL, $3,277.

To illustrate the importance to the policy-holder of low premiums in more general terms, it may be stated that by a reduction of twenty-five per cent. in the rate of premium, the same amount of money will secure a policy thirty-three and one-third per cent. greater, and likewise that a reduction of twenty-five per cent. in the rate of premium is precisely equivalent to an annual cash dividend of thirty-three and one-third per cent. payable in advance, or to a dividend of forty-five per cent. payable at the end of five years.

By the Stock plan the full cash effect of the premium is immediately secured to the insured, the Company taking all the risk. By the Mutual plan the full value in insurance of the premium paid, is not secured to the policy-holder, who takes a portion of the risk himself.

The Premiums

Charged by the Universal are as low as the actual experience of insured life in this country will justify, and on ordinary Life and Ten-Year Non-forfeiture policies are nearly one-third lower than those charged by a majority of Mutual Companies.

Special attention is asked to our "Return Premium Plan," by which the amount of the policy is secured simply by the temporary deposit of the annual premiums, which are returned in full, together with the amount assured, to the holder of the policy when it shall become a claim upon the Company. Also to the

"REDUCTION PREMIUM PLAN,"

By which a reduction of one-third is made in the premium after the first annual payment, being, in fact, equivalent to a dividend of 33 1-3 per cent. A clause is inserted in the policies issued by the "Universal," in which these results are distinctly specified and guaranteed.

Full General Agents' Commission paid to good, live solicitors. Local Agents wanted in every town and county. Address:
